

“Jaringan on-line kesehatan”

“Pengembangan Jaringan Kerja Surveilans Penyakit Tidak Menular”
, 22 – 26 October 2001

National Institute of Health Research and Development

Collection & Dissemination

- fragmented information resources.
- communication gap.
- low awareness.

-
-
-
-
- rapid development in telematics.

Health Telematics

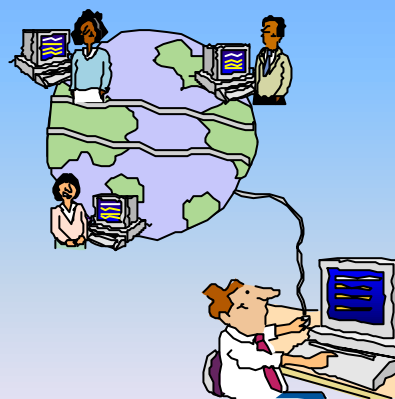

- “Health telematics is a composite term for **health-related** activities, services and systems, **carried out over a distance by means of information and communication technologies**, for the purpose of global health promotion, disease control and health care, as well as education, management and research for health”.

*Dr Hiko Tamashiro, Dr Toshiyuki Oshima,
Department Of Health in Sustainable Development, WHO, Geneva, Switzerland*

Functional areas of H.T.

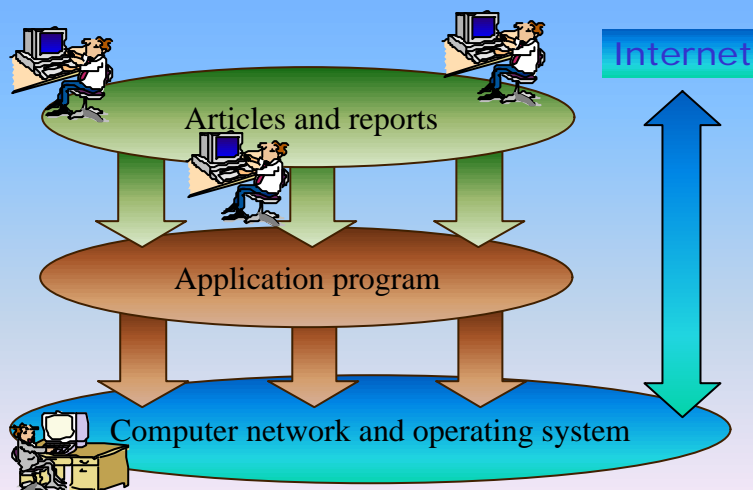

- tele-education
- telemedicine
- telematics for health research
- telematics for health services management
-*tele preventive medicine*

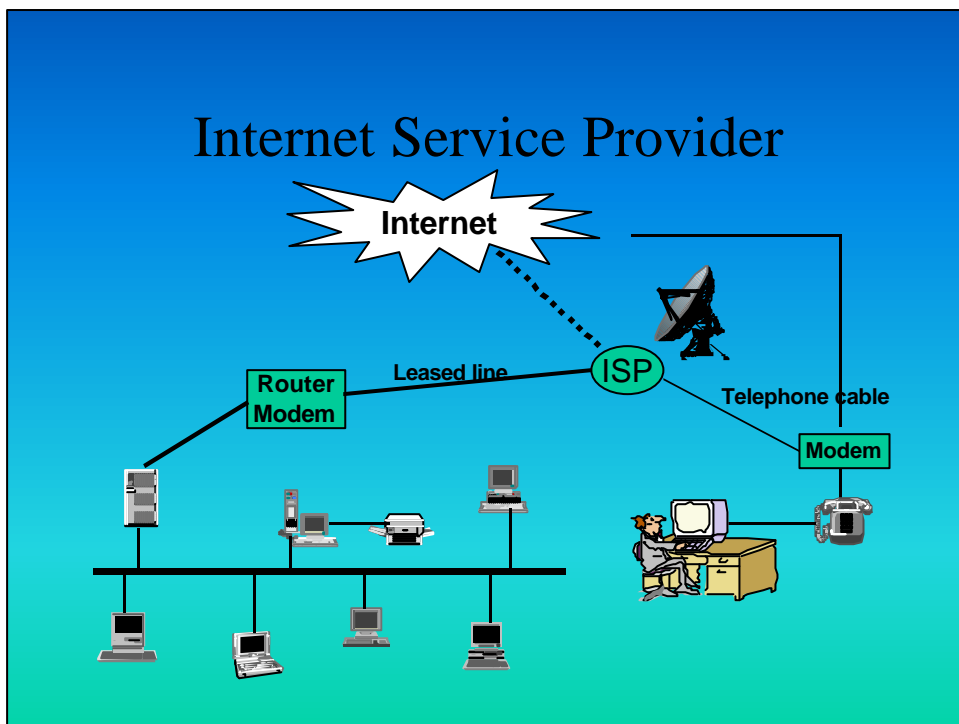

Factors associated with Sustainability HT tech.

- commitment of decision-makers
- ease to use
- applicability to local condition
- product stability
- cost-benefit and cost-effectiveness
- future funding and human resources development
- low maintenance
- cultural and social acceptance
- etc.

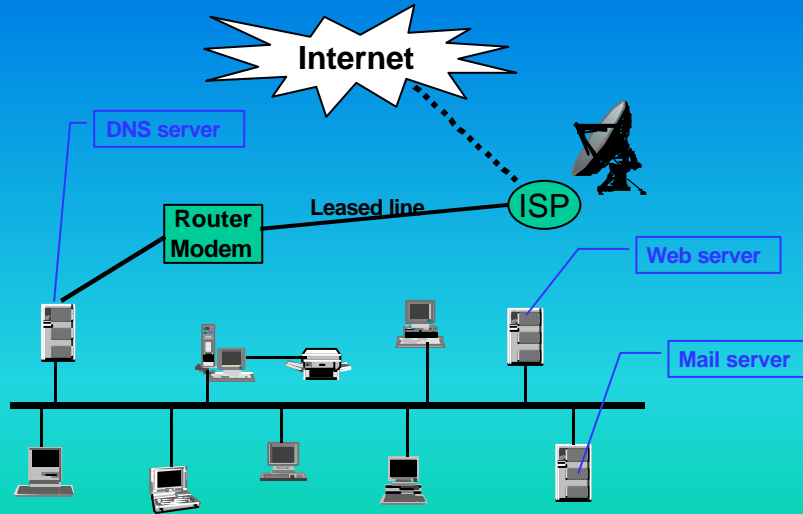

What, Who, How?

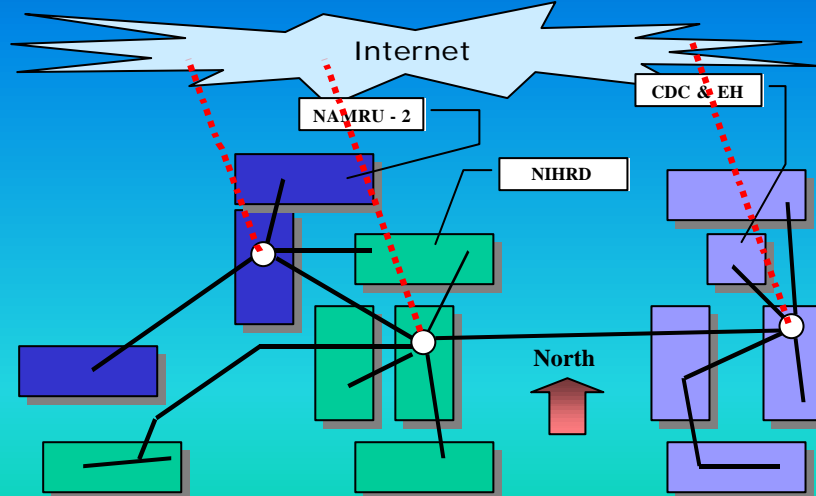

Computer network and operating system

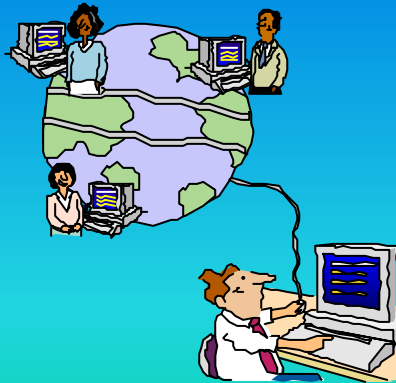

DNS, Web, Mail server

Articles and reports

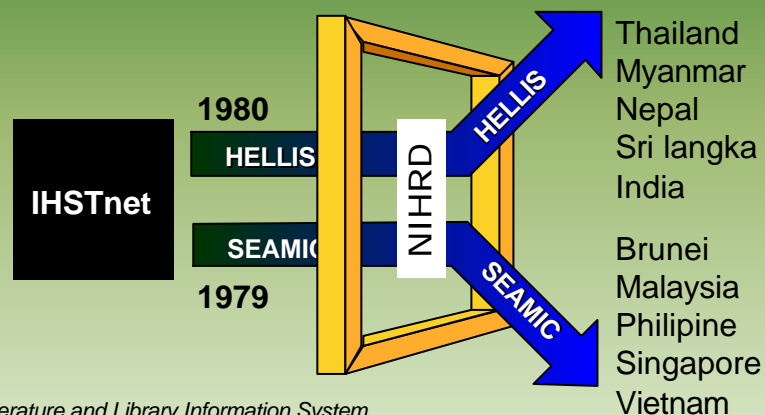

Information System

IHSTnet

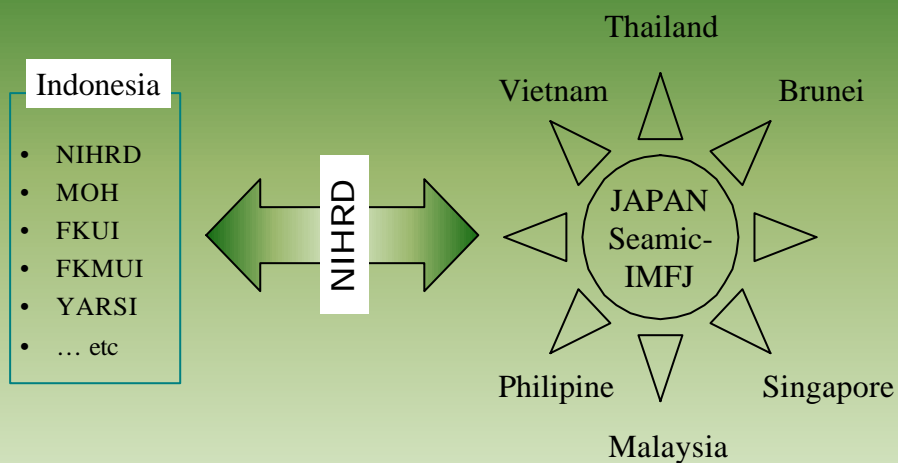

IHSTnet ~ neighbor country

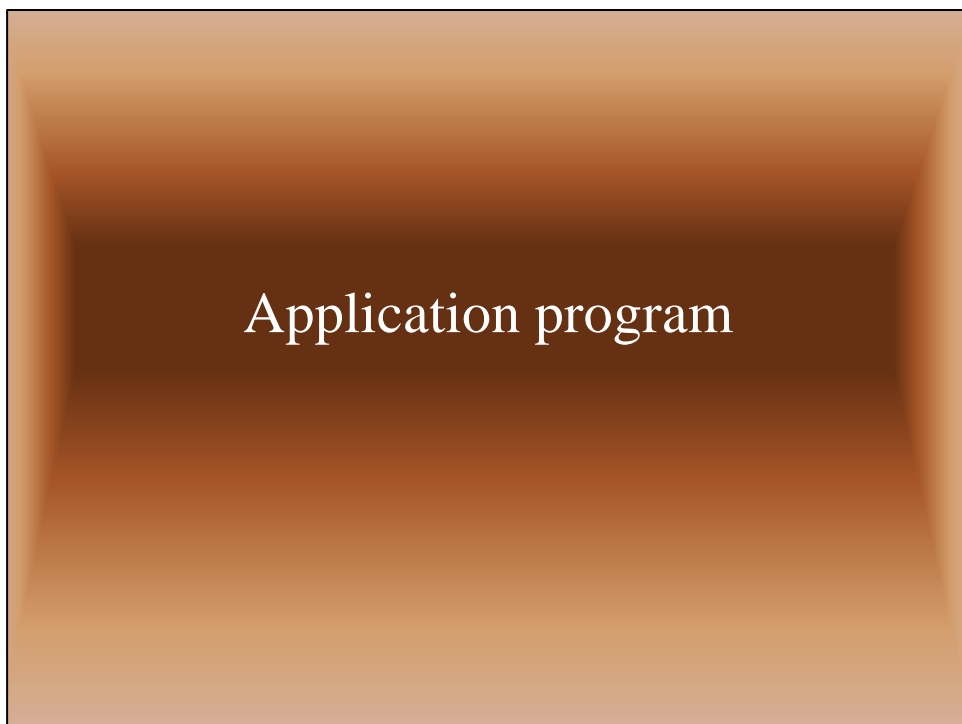

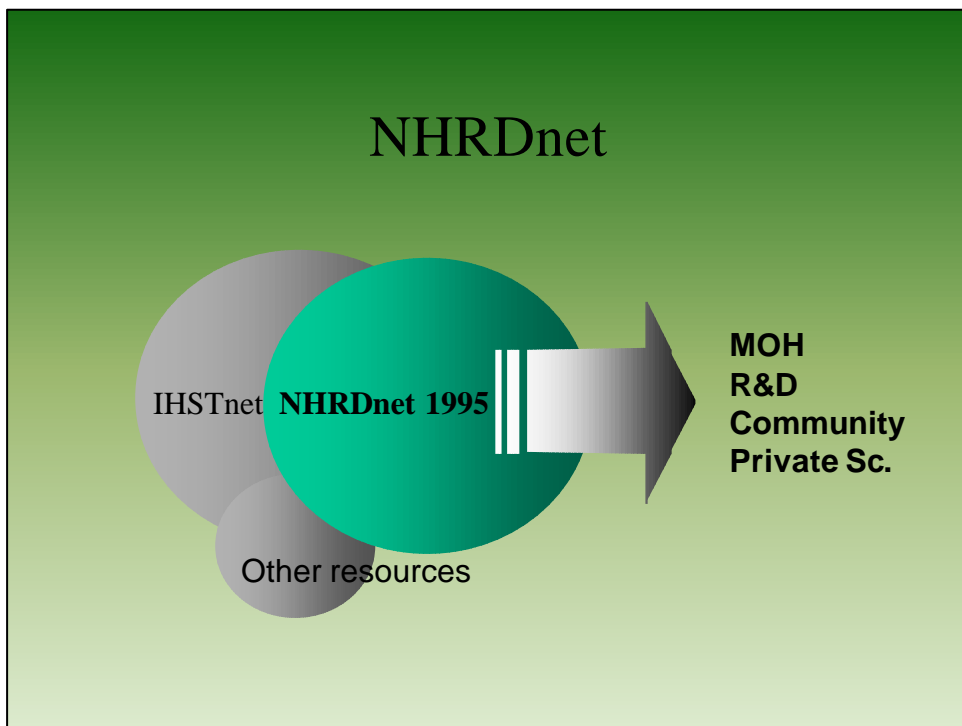

^{*)} - Health Literature and Library Information System
 - South East Asia Medical Information Center

Next : “EDDS” ^{*)}

^{*)} Electronic Document Delivery Service

Digital Library vs Online Catalog

- Digital Library = full resources collection (document, audio, video)
- Online Catalog = only a bibliography

Source: KMRG Institute of Technology -

What is IndonesiaDLN?

- It is a community of Indonesian people that share their own knowledge,
- Through a network of digital library,
- Toward a better life or a knowledge based

Source: KMRG Institute of Technology -

The Engine of the GDL Server

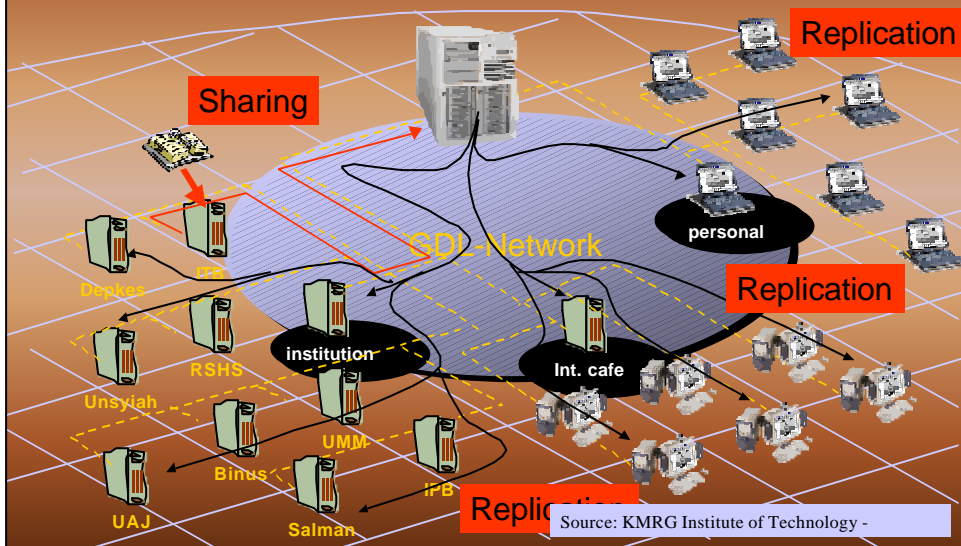

- Network Operating System : Linux RedHat 6.2

- Modules :
 - apache 1.3.19
 - mysql 3.23.36
 - php 4.0.4

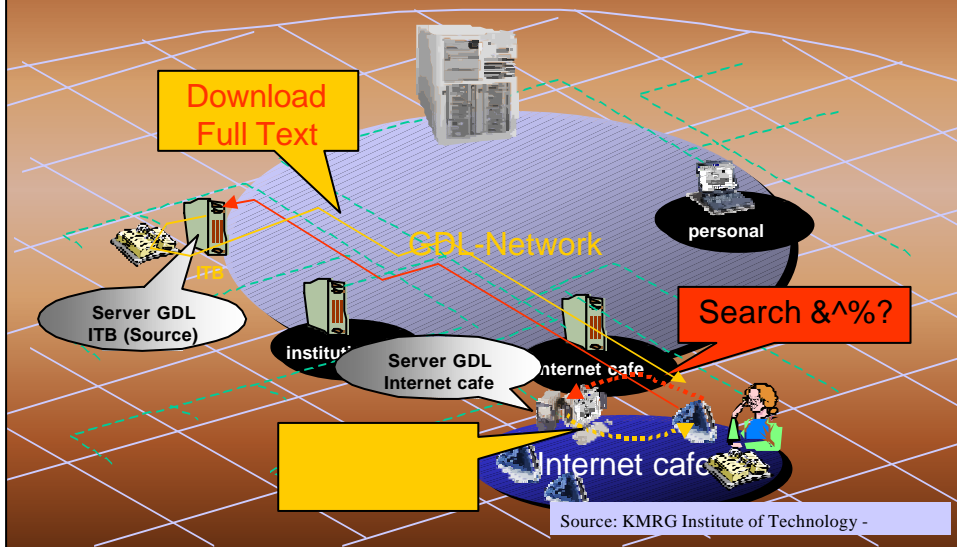

- GDL 3.1

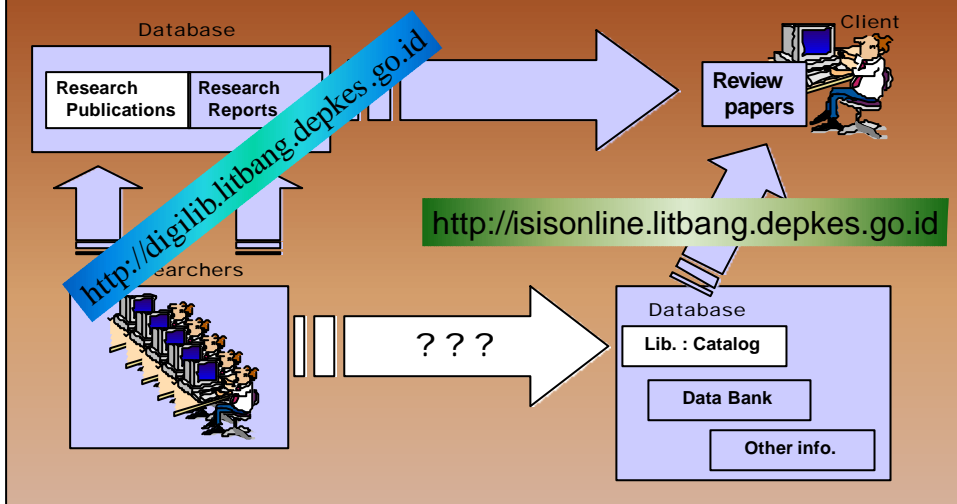

Sharing & Replication Scenario

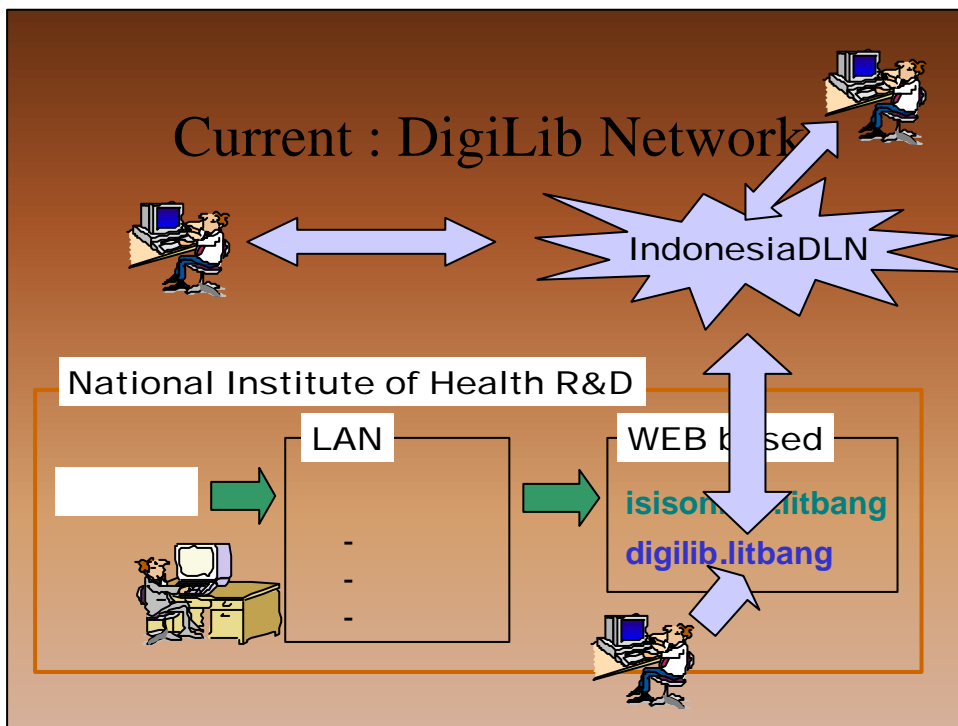

Access Scenario

Current : Web - based access

Benefit

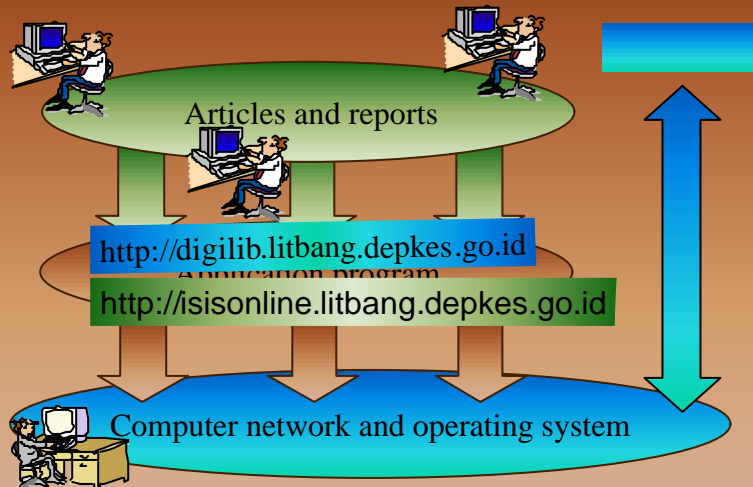

<http://isisonline.litbang.depkes.go.id>

- Web-based catalog dissemination
- Interactive “shopping cart”

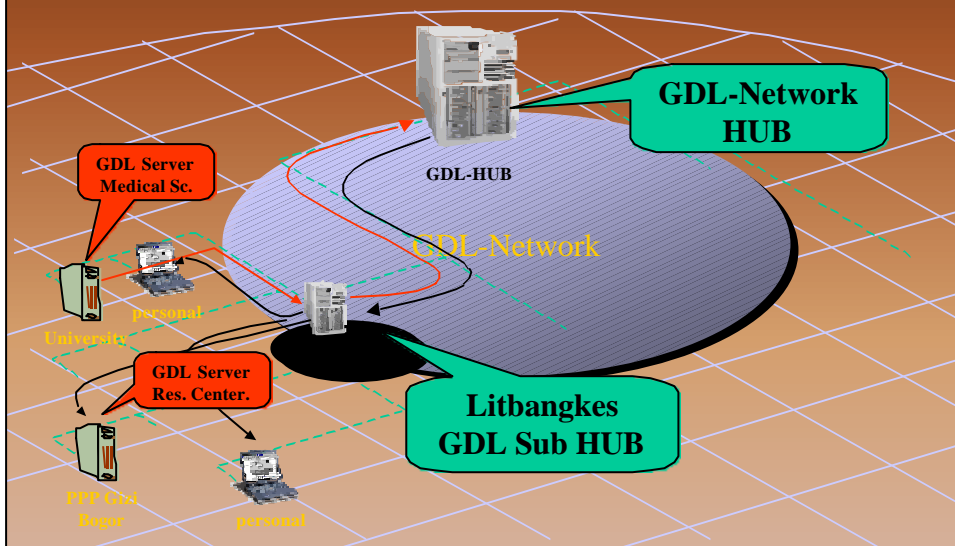

<http://digilib.litbang.depkes.go.id>

- Articles dissemination
- Research reports dissemination
- Lesson materials dissemination

The screenshot shows the Ganesha Digital Library v 3.1 website. The header includes the logo 'gdl ganesha digital library' and 'Badan Litbang Kesehatan'. A navigation bar contains links like '>>> Browse Categories', 'Home', and 'Free Registration'. Below the header, a banner reads 'Ganesha Digital Library v 3.1 KMRG ITB Connecting People's Knowledge'. The main content area shows a 'Welcome Guest (not logged in) >>' message and a 'MENU' section. A search bar is present with options for 'Internet' and 'Intranet'. The 'Categories' section lists various document types with counts in parentheses, such as 'Articles (0)', 'Clipping (0)', 'Course Material (0)', 'Distance Learning (0)', 'E-Books (0)', 'Examination Material (0)', 'Indonesia (555)', 'Internet Directory (0)', 'Jurnal (0)', 'Member (3)', 'Multimedia (0)', 'News (0)', 'Proceeding (0)', 'Publication (0)', 'Research Report (0)', 'S1-Final Project (0)', 'S2-Master Thesis (0)', 'S3-PhD Thesis (0)', and 'Temporary (0)'. Annotations include a box labeled 'Member : individual directories' pointing to the 'Member (3)' category, and another box labeled 'Each categories will be filled from the members directories by CKO' pointing to the entire categories list.

Standar Sertifikasi Teknologi Informasi Bidang Internet

(Information Technology Standard Certification: Internet)

Budi Rahardjo, Dr. Ir.

2000-08-17

Keywords: IT, information technology, standard certification, APJII, internet

Grey Literature contains 1 files (for public).
